

D'Anglerz

Gut Rock.

D'ANGLERZ is a hard rock band featuring former members of Silver Dirt, BACK:N:BLACK, The Verdict and McQueen. With roots reaching back to 2007, the band has imbibed inspiration from rock, punk, metal, blues & glam— to forge their own sound defying classification. Influences include Aerosmith, GNR, Zepp, Zombie, Crüe & AC/DC.

With three continents & four instruments, the band speaks with a common voice: Rock N Roll, delivered from the gut.

D'ANGLERZ have always focused on live shows, but are now producing their first full album. A few recordings exist: "Big God" appears on 2011's Monster Magnet Tribute, "Kiss the Right Side of Your Brain". CERN's 2010 release features "Still Breathing".
